The bar chart shows the average number of answers per question for different change types.

- **All Method changes**: 1.75
- **PM changes**: 1.5
- **Method body**: 1.0
- **PM signature**: 0.75
- **PM added**: 3.25
- **PM deleted**: 3.5
- **PM exceptions**: 3.5

The chart indicates that PM exceptions have the highest average number of answers per question, followed by PM added and then PM deleted. All other categories have lower average numbers of answers per question.
