 10. Click 5-Ball, then click the Star at the top right
 11. Click back to exit
-

- **World Travel Guide by Triposo**

1. Open app
2. Scroll down to "Browse Destinations" and click on it
3. Scroll down to Bermuda, click on it (we pick Bermuda because the size of the travel guide is very small compared to other ones, so we don't have to download nearly as much data like 100MB...)
4. At the top of the navbar, click the Download button
5. Once downloaded, click Open (where the download button used to be)
6. Slide left three times
7. Click the Search magnifying glass at the top, type 'ac' and click Acorean Cafe

8. Click the map by the search button
 9. Zoom out twice, then click back
 10. At the top left, where it says Acorean Cafe, click the drop down and select Travel Log
 11. Click start logging, type 'asdf' for the log entry, then OK
 12. Click the top left again, and go to account
 13. Click temperature scale, change to celsius
 14. Click the top left, click About
 15. Finally, continue to click back until the app is exited
-

- **Rome**

1. Open app, wait for load
 2. Click no
 3. Click Rome
 4. Scroll down, click Venezia to Aventino
 5. Scroll picture left twice
 6. Click map at the top (doesn't seem to do anything for me)
 7. Click back (top left)
 8. Click top right menu, then Map (which works)
 9. Click back twice (phone button)
 10. Click top right menu, then Overview
 11. Click overview
 12. Click back twice (top left)
 13. Click Featured (next to Cities)
 14. Nothing here seems to work... Click cities again, then click Search at the top
 15. Type 'am', click Amsterdam (this will open Google Play app though, so this is optional)
 16. Finally, click back, and OK to quit
-

- **Easy Birthday Reminders**

1. Open app, click okay, scroll down and click okay
2. Click phone contacts, click ok then click back
3. Click Reminder Options - anything you click on this screen says it requires full version
4. Click ok
5. Click back, then click balloon (See Upcoming)
6. Click okay if something pops up, then click back
7. Click Facebook sync, scroll down, click okay, then click back
8. Click other birthdays
9. Click okay

10. Add a birthday manually (other birthdays option)
11. Click back
12. Click back to exit

- **gReminders**

1. Open app
2. Click the + button at the top right
3. Click description, type 'abc'
4. Click date, click + twice on the days column
5. Click remind me, check on boot (click the red on the side), and check sound, click done at top right
6. Click list, new list, type 'def' then click done, and select the list
7. Click done at the top right, should be back to first screen now
8. At the bottom, click the far bottom right arrow to advance the day
9. Click it again, and you should see the new event listed
10. At the top, click List (next to Date)
11. Switch back to Date
12. Click the event, then click delete
13. Click back to exit

- **Video Poker**
